Re: GN Docket No. 98-120
In the Matter of Carriage of Digital Television Broadcast Signals:
Amendment to Part 76 of the Commission's Rules

Dear Ms. Dortch:

On September 5, 2007, Becky Powhatan Kelley, representing The Weather Channel[®], The Weather Channel HD[®], and Weatherscan[®] networks, discussed with Rick Chessen, Commissioner Copps' Media Advisor, the detrimental impact that a dual must-carry requirement would have on The Weather Channel, The Weather Channel HD, and Weatherscan networks. She also discussed how limited bandwidth on cable systems is not a thing of the past but instead an issue in the current marketplace, which will only be made worse by dual must-carry. The Weather Channel, The Weather Channel HD, and Weatherscan networks are owned by The Weather Channel, Inc.

Pursuant to 47 C.F.R. § 1.1206, this notice is being filed electronically with the Commission. Please contact the undersigned with any questions you may have.

Respectfully submitted,

Becky Powhatan Kelley

cc: Rick Chessen
